Beak Length vs Beak Depth
Tail Length vs Hand Wing Index
Habitat Density vs Tarsus Length
The whole study area
The three bay areas with ecosystem productivity change
a)
Historucal Diversity Metrics
Richnes = 1852.58
Evenness = 0.04
Redundancy = 0.616
SLR Diversity Metrics
Richnes = 1548.79
Evenness = 0.1
Redundancy = 0.328
Beak Depth
Beak Length
b)
Historucal Diversity Metrics
Richnes = 7439.93
Evenness = 0.08
Redundancy =0.513
Divergence = 0.92
SLR Diversity Metrics
Richnes = 5998.25
Evenness = 0.22
Redundancy =0.599
Divergence = 0.84
Hand Wing Index
Tail Length
c)
Historucal Diversity Metrics
Richnes = 140.35
Evenness = 0.08
Redundancy =4.006
Divergence = 0.6
SLR Diversity Metrics
Richnes = 129
Evenness = 0.21
Redundancy =2.529
Divergence = 0.88
Tarsus Length
Habitat Density
d)
Historucal Diversity Metrics
Richnes = 1251.06
Evenness = 0.03
Redundancy = 0.002
SLR Diversity Metrics
Richnes = 1369.03
Evenness = 0.09
Redundancy =0.044
Beak Depth
Beak Length
e)
Historucal Diversity Metrics
Richnes = 3633.03
Evenness = 0.12
Redundancy = 0.02
Divergence = 0.61
SLR Diversity Metrics
Richnes = 5488.07
Evenness = 0.2
Redundancy =0.324
Divergence = 0.79
Hand Wind Index
Tail Length
f)
Historucal Diversity Metrics
Richnes = 85.82
Evenness = 0.1
Redundancy =1.357
Divergence = 0.51
SLR Diversity Metrics
Richnes = 110.51
Evenness = 0.23
Redundancy =2.042
Divergence = 0.68
Tarsus Length
Habitat Density
Historical TPD Value
